Development Partner Profile

InterAmerican Development Bank

Summary

This development partner profile showcases different dimensions of performance and the distribution of development finance of the InterAmerican Development Bank. The information below was compiled from two sources: AidData’s 2014 Reform Efforts Survey and 2004-2013 Core Database. The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Leaders evaluated the degree to which the InterAmerican Development Bank’s influenced the policy agenda (n=321), provided useful advice (n=231), and how helpful this development partner was in implementation (n=163). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.
