Central African Republic
Summary

This profile showcases different dimensions of performance and the distribution of development finance in the Central African Republic. The information below was compiled from two sources: AidData’s 2014 Reform Efforts Survey and 2004-2013 Core Database. The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Respondents working in the Central African Republic evaluated the degree to which the Central African Republic’s development partners influenced the policy agenda (n=22), provided useful advice (n=10), and how helpful the development partners were in implementation (n=10). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.
