

Afghanistan

Summary

This profile showcases different dimensions of performance and the distribution of development finance in Afghanistan. The information below was compiled from two sources: AidData's [2014 Reform Efforts Survey](#) and [2004-2013 Core Database](#). The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Respondents working in Afghanistan evaluated the degree to which Afghanistan's development partners influenced the policy agenda (n=100), provided useful advice (n=79), and how helpful the development partners were in implementation (n=57). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.

Who are Afghanistan's top development partners?

Total financial contributions by donor type*
(USD \$59 billion total)

Total financial contributions by donor type
(USD \$51 billion total)

* When a donor type's contributions are less than 0.1%, they are not represented in this figure.

The information below was compiled from two sources: AidData's [2014 Reform Efforts Survey](#) and [2004-2013 Core Database](#). The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Respondents working in Bulgaria evaluated the degree to which Bulgaria's development partners influenced the policy agenda (n=24), provided useful advice (n=16), and how helpful the development partners were in implementation (n=16). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.

Who are Bulgaria's top development partners?

Total financial contributions by donor type*
(USD \$4 billion total)

Total financial contributions by donor type
(USD \$4 billion total)

* When a donor type's contributions are less than 0.1%, they are not represented in this figure.

This profile showcases different dimensions of performance and the distribution of development finance in the Dominican Republic. The information below was compiled from two sources: AidData's [2014 Reform Efforts Survey](#) and [2004-2013 Core Database](#). The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Respondents working in the Dominican Republic evaluated the degree to which the Dominican Republic's development partners influenced the policy agenda (n=41), provided useful advice (n=31), and how helpful the development partners were in implementation (n=31). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.

Who are the Dominican Republic's top development partners?

Total financial contributions by donor type*
(USD \$6 billion total)

Total financial contributions by donor type
(USD \$6 billion total)

* When a donor type's contributions are less than 0.1%, they are not represented in this figure.

The information below was compiled from two sources: AidData's [2014 Reform Efforts Survey](#) and [2004-2013 Core Database](#). The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Respondents working in Honduras evaluated the degree to which Honduras' development partners influenced the policy agenda (n=33), provided useful advice (n=24), and how helpful the development partners were in implementation (n=17). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.

Who are Honduras' top development partners?

Total financial contributions by donor type*
(USD \$8 billion total)

Total financial contributions by donor type
(USD \$7 billion total)

* When a donor type's contributions are less than 0.1%, they are not represented in this figure.

The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Respondents working in Madagascar evaluated the degree to which Madagascar's development partners influenced the policy agenda (n=58), provided useful advice (n=41), and how helpful the development partners were in implementation (n=40). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.

Who are Madagascar's top development partners?

Total financial contributions by donor type*
(USD \$10 billion total)

Total financial contributions by donor type
(USD \$9 billion total)

* When a donor type's contributions are less than 0.1%, they are not represented in this figure.

Niger

Summary

This profile showcases different dimensions of performance and the distribution of development finance in Niger. The information below was compiled from two sources: AidData's [2014 Reform Efforts Survey](#) and [2004-2013 Core Database](#). The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Respondents working in Niger evaluated the degree to which Niger's development partners influenced the policy agenda (n=37), provided useful advice (n=26), and how helpful the development partners were in implementation (n=22). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.

Sierra Leone

Summary

This profile showcases different dimensions of performance and the distribution of development finance in Sierra Leone. The information below was compiled from two sources: AidData's [2014 Reform Efforts Survey](#) and [2004-2013 Core Database](#). The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Respondents working in Sierra Leone evaluated the degree to which Sierra Leone's development partners influenced the policy agenda (n=29), provided useful advice (n=13), and how helpful the development partners were in implementation (n=11). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.

Who are Sierra Leone's top development partners?

Total financial contributions by donor type*
(USD \$5 billion total)

Total financial contributions by donor type
(USD \$3 billion total)

* When a donor type's contributions are less than 0.1%, they are not represented in this figure.

Source: AidData's 2004-2013 Core Database

How are development partners performing in different policy areas in Sierra Leone?

** The usefulness of advice scale ranged from 1 to 5.

Togo

Summary

This profile showcases different dimensions of performance and the distribution of development finance in Togo. The information below was compiled from two sources: AidData's [2014 Reform Efforts Survey](#) and [2004-2013 Core Database](#). The 2014 Reform Efforts Survey asked public, private, and civil society leaders in 126 low- and middle-income countries questions about the most pressing problems they face, their top policy priorities, and how aid agencies can partner with them most effectively. Respondents working in Togo evaluated the degree to which Togo's development partners influenced the policy agenda (n=21), provided useful advice (n=12), and how helpful the development partners were in implementation (n=12). The 2004-2013 Core Database represents the most comprehensive dataset tracking international development finance.

Who are Togo's top development partners?

Total financial contributions by donor type*
(USD \$4 billion total)

Total financial contributions by donor type
(USD \$3 billion total)

* When a donor type's contributions are less than 0.1%, they are not represented in this figure.

Source: AidData's 2004-2013 Core Database

How are development partners performing in different policy areas in Togo?

** The usefulness of advice scale ranged from 1 to 5.

■ Average Development Partner Performance in Togo
■ Average Development Partner Performance across all countries
